14	Junior Sports	•	•	•	•	•	•	•	•	•	○	•

○ = Organizing City, • = Participating City (The Organizing City of "Staff Capacity Enhancement Program" depends on the course)

Seoul Declaration

We, the representatives from Bangkok, Hanoi, Metro Manila, Seoul, Singapore, Taipei and Tokyo participated in the 10th Plenary Meeting of ANMC21, held in Seoul from October 10 to 11, 2011. We have had open and friendly discussions on the joint projects of the ANMC21 and common issues and challenges confronting cities.

We express our sincere gratitude to the City of Seoul which has successfully led this auspicious 10th Plenary Meeting as the Host City.

Upon the closing of this Meeting, through collective and common understanding reached by our discussions thus far, we hereby declare the following:

1. In the decade since the establishment of the ANMC21 in 2001, the Network has made steady accomplishments in a diversity of fields including the promotion of development of a small to medium-sized jet passenger plane, crisis management, measures against pandemic epidemic diseases, tourism campaigns and cultural and sports exchange. We reaffirm our commitment to achieve ANMC21 objectives of promoting greater solidarity and cooperation among major cities in Asia to create a quality living environment that ensures and maximizes happiness of the residents of Asia.
2. As can be understood from development initiatives such as the Han River Renaissance Project in Seoul, we agree that throughout human history, rivers not only play diverse economic roles in driving the development of large cities, but also contribute to enhancing the quality of life of cities. Therefore, we shall share our knowhow, technology and experience in waterfront development to ensure efficient and effective policy making.
3. Regarding large-scale disasters, massive earthquakes and tsunamis, major typhoons, and torrential rains pose a common threat to major Asian cities. We acknowledge that policies to make our cities safe are crucial for sustainable development. Therefore, we shall share our knowhow, technology and experience to prepare and ensure prompt response to disasters and effective recovery efforts to minimize injury, death and property damage and to swiftly regain city functions. Based on this sharing, we shall undertake studies on more effective measures within the framework of our existing joint projects.
4. The 11th Plenary Meeting will be held in Singapore at an appropriate date in 2012.

Bangkok **Vallop Suwandee**
Chairman of the Advisors
to Governor of Bangkok
Bangkok Metropolitan Administration

Taipei **Wei-Zen Chen**
Deputy Mayor
Taipei City Government

Hanoi **Tran Trong Toan**
Ambassador
The Socialist Republic of Vietnam

Tokyo **Kazuo Yoshikawa**
Vice Governor
Tokyo

Metro Manila **Atty. Francis N. Tolentino**
Chairman
Metropolitan Manila
Development Authority 

Seoul **Young Gyu Kwon**
Acting Mayor
Seoul Metropolitan Government

Singapore **Hwee Nee Chang**
Deputy Secretary (Planning)
Ministry of National Development
Singapore

As part of our efforts to promote economic exchange among member cities, the “Asian Network of Major Cities 21—Asia Zone” (hereafter “Asia Zone”) was set up within the Low Carbon Green Growth Expo 2011, which was convened concurrently with the 10th Plenary Meeting in Seoul.

This Expo is considered one of the largest environmental exhibitions in South Korea. Exhibitors in the ASIA Zone included Tokyo-based small- and medium-sized businesses with state-of-the-art proprietary environmental technologies looking to expand into the Korean market as well as businesses and trade promotion authorities from other parts of Asia. The ASIA Zone exhibition represented a great opportunity to learn about a broad mix of innovative products and technologies with great future potential. A summary of the exhibitors and an overview of the Expo are provided below.

■ Overview of the Low Carbon Green Growth Expo 2011

Hosted by South Korea’s Ministry of Environment under the slogan of achieving a 30% reduction in greenhouse gas emission by year 2029 through fostering green industry development and environmental living practices, this trade show will showcase a wide range of eco-friendly and low carbon sectors and technologies.

1. Event Name: Low Carbon Green Growth Expo 2011
2. Event Period: Wednesday, October 12 to Saturday, October 15, 2011, 10 am - 6 pm
(10:00-17:00 on the final day of the Expo)
3. Hosted by: Ministry of Environment, Republic of Korea
4. Organized by: Korea Environmental Industry and Technology Institute, and the Korean Economic Daily
5. Venue: COEX, Halls A and B (Hall area: 17,658 m²) *Free admission
6. Scale: 203 exhibitors, 712 booths
7. Number of visitors: 42,403

12 Oct: 9,720

13 Oct: 10,638

14 Oct: 14,014

15 Oct: 8,031

■ Overview of “Asian Network of Major Cities 21—Asia Zone” (“Asia Zone”)

Number of exhibitors: 16 companies (Other than companies from Tokyo, there were also companies and trade promotion agencies from the Philippines, Vietnam, Malaysia, and Taiwan.)

Please see the appendix for a list of exhibitors.

■ Observation by attendees of the ANMC21 Plenary Meeting

- 1 Date and time: 12 October 2011, 10:00-11:00
- 2 Number of participants: 6 (4 from Taipei, 1 from Singapore, 1 from Seoul)
