

ANMC21 Joint Project
**「Promotion of Development of a Small
to Medium-sized Jet Passenger Plane」**
Final Report

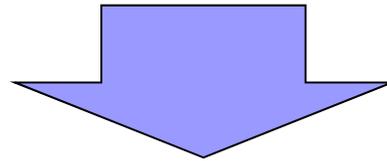

Project organizing city : Tokyo

November 19, 2013

Project Objective

To promote the development, manufacture and operation of a small to medium-sized Jet passenger plane by utilizing Asian technologies and competencies to meet increasing air travel demand in the Asian region

- Contribute the progress in aviation industry**
- Further Strengthen Asian identities**

Activities

International Annual Conference

ANMC21-Asian Passenger Plane conferences in which the aircraft specialists participated have been held every year since 2002

Research and consideration regarding the promotion of the development

Conducted the researches for airlines and considerations of the future Asian passenger plane vision

Announcement of proposal and vision for the promotion of the development

Year 2008 : 「Proposal」

Year 2010 : 「Asian Passenger Plane Vision」

Asian Passenger Plane Conference

Conferences have been held annually
from 2002 to 2012

YEAR	VENUE
2002(1 st)	Tokyo (Japan)
2003(2 nd)	Taipei (Taiwan)
2004(3 rd)	Kuala Lumpur (Malaysia)
2005(4 th)	Jakarta (Indonesia)
2006(5 th)	Singapore (Singapore)
2007(6 th)	Tokyo (Japan)
2008(7 th)	Bangalore (India)
2009(8 th)	Hanoi (Vietnam)
2010(9 th)	Tokyo (Japan)
2011(10 th)	Changwon (Korea)
2012(11 th)	Nagoya (Japan)

Major Achievements

- Promotion of the development of a jet passenger plane in Asia
- Announcement of the proposal and the vision for the future development of jet passenger plane
- Establishment of the network between Asian passenger plane specialists and Enhancement of human resource development

Promotion of the development of a jet passenger plane in Asia

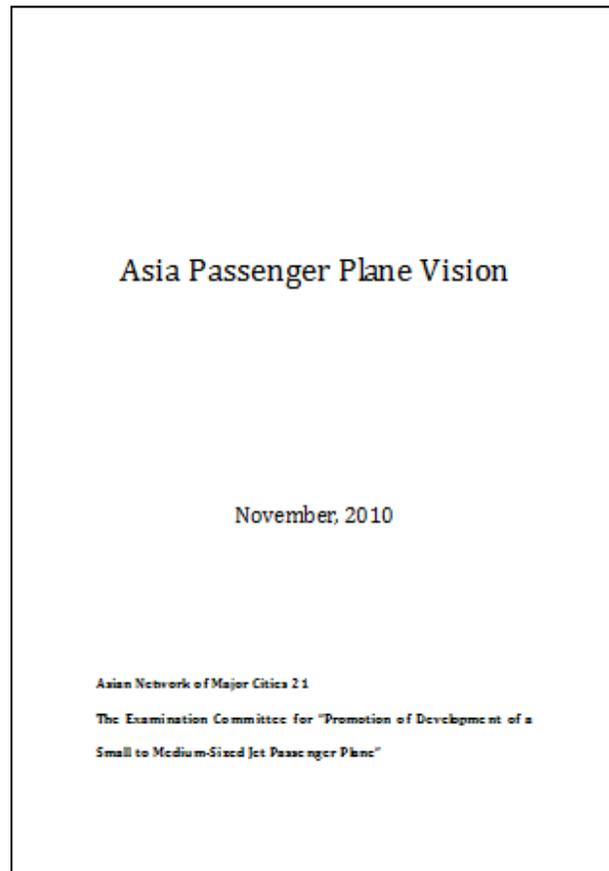

- Asian manufacturers participated in the development of MRJ (Mitsubishi Regional Jet) program

- Foster an atmosphere conducive to jet passenger plane development in Asia

In recent years, Asian companies have been more involved in international joint development for jet passenger plane. For instance, India has move to develop domestic plane

Announcement of the proposals for the future development of jet passenger plane

**“Asia Passenger Plane Vision”
was announced in 2010**

Establishment of the network between Asian passenger plane specialists and Enhancement of human resource development

- Establishment of the network throughout International conferences

- Development of human resources that contribute to driving the future expansion of the aerospace industry in Asia

Tokyo Metropolitan Government have been actively hosting foreign students from Asian countries such as Singapore, Indonesia, Malaysia and Thailand to Tokyo Metropolitan University in conjunction with this joint project

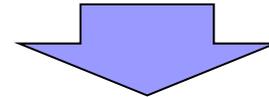

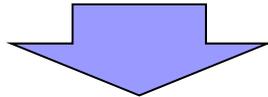

Accomplishment of the joint project

Progress in the aerospace industry in participating cities (countries)

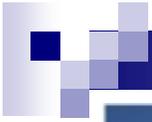

- Development of the MRJ
- Concept of Turboprop
- Participation in the International joint project

“Asia Passenger Plane Vision” - Announce the design of the future passenger plane and its concept

Reaped the fruits of the discussions between Asian countries and completed Asia passenger plane vision for development and manufacture in the future

Anticipating individual efforts from companies and organizations related to Asian aviation, the “Promotion of the development of a jet passenger plane” project will come to an end within this year

Asian wings to fly the sky of Asia!
Thank you very much
