Agenda

- ICT Joint Project Website Overview
- Project Status
- Future Activities

ICT Joint Project Website - Overview

- Objective
 - Create an “ICT Joint Project” website for information exchange and experience sharing.
 - Enhance website as a KM (Knowledge Management) platform; expand service to include community knowledge sharing, e-learning, consulting, and more.
 - Provide service platform to share information with member cities and with the public.
 - Sharing of practices on e-government initiatives and new Internet technologies that facilitate such initiatives.
 - Strengthen training/experience sharing via on-line e-learning platform.
